DustPly Plus™ -D10

Dust Control

DESCRIPTION

DustPly Plus™ -D10 is an environmentally friendly, non-toxic, high-strength tackifier. Prior to application the liquid concentrate is mixed with water to achieve recommended dilution. When the solution is sprayed on the soil it forms a stable dust control matrix making it highly effective for fugitive dust control.

DustPly Plus™ -D10 forms a wet matrix on the soil surface. When the matrix is absorbed, the tackifier binds the soil particles together. DustPly Plus™ -D10 has superior adhesion to various types of soils and sand for greater longevity. In addition, if the surface is weakened/disrupted by occasional traffic, DustPly Plus™ -D10 will stand up well with only a slight loss of binding strength. Even with cracking, the increase of particle size of bound dust keeps down the dust which reduces the frequency of a general application. Additional water may be sprayed on the surface to re-constitute the film and regain some binding strength.

WHERE TO USE

- Road sides
- Agricultural field
- Construction sites
- Mines and coal carts
- Anywhere fugitive dust is present

FEATURES AND BENEFITS

- Environmentally friendly.
- Binds fine soil particles to prevent fugitive dust.
- Liquid concentrate can be added to a water truck and mixed without agitation.
- Non-toxic* as applied to domestic and wild animals, aquatic organisms. Passes Acute Toxicity Test (EPA-821-R-02-012).
- No arsenic, chlorine, copper, mercury or heavy metals in DustPly Plus™ -D10.

PACKAGING

200/300-gal. totes - Please contact your Willamette Valley Company Representative.

STORAGE

Store this product in a cool shaded covered environment

TECHNICAL INFORMATION

TYPICAL PROPERTIES

Solids	24-26%
Maximum Ash Content (Computrac Max 5000)	0.05 %
pH	4.5 – 7.5
Color	Off white

RECOMMENDED APPLICATION RATES PER ACRE

Non-trafficked/Medium traffic – 1 gallon of DustPly Plus™ -D10 + 4 gallons of water per 100 square feet.

NOTES

***Proper dilution is required.** This product is supplied to the customer in a concentrate form. Any additions other than the proper amount of water may result in degradation of the product performance.
